TECHNICAL STRENGTHS

- Languages: Swift
- Frameworks: UIKit, SwiftUI
- Concurrency: Async/Await, Grand Central Dispatch (GCD)
- Architecture: MVVM, MVC.
- Testing: Unit Testing & UI Testing with XCTest and Swift Testing
- Data Management: Swift Data
- Networking: URLSession, Codable for JSON parsing
- Tools: Xcode, Git (GitFlow), Jira

SOFT SKILLS

- Strong problem-solving skills
- Team collaboration
- Attention to detail
- Continuous learner
- Communication skills

LANGUAGES

- Native Spanish
- Intermediate English

PROFILE

I am an **iOS developer** with 2 years of experience in designing and building **mobile applications** and a year as a **tutor of programming academy**. My goal is to continually improve my skills and contribute to innovative projects by applying the knowledge I've acquired in mobile development, using **SwiftUI**. I am passionate about **solving problems** through technology and enjoy collaborating with teams to deliver **high-quality software solutions**. Always eager to **learn, adapt**, and embrace **new challenges** in the tech world.

WORK EXPERIENCE

iOS Developer

GFT Technologies / 2022 – 2024

- Developed new features and bug fixes for apps using UIKit and SwiftUI.
- Managed client issues and provided technical support, improving client satisfaction.
- Version control with GitFlow and SourceTree, ensuring smooth collaboration.
- Task management with Jira, following SCRUM methodologies.
- Collaborated with cross-functional teams to deliver features ahead of schedule, optimizing app performance by 20%.

iOS Developer Mentor

iApple Coding Academy (2023 – Present)

- Mentored junior developers, guiding them through their journey in iOS development.
- Provided support in solving complex technical problems and code reviews, fostering their growth and skill development.
- Organized and led workshops on Swift, UIKit, and SwiftUI, helping students build real-world projects.
- Collaborated with academy instructors to update the curriculum based on industry trends and best practices.
- Helped streamline the onboarding process for new students, increasing retention rates by 15%.

iOS Developer

Doonamis / 2022

- Developed enhancements and fixes for apps in UIKit and SwiftUI.
- Managed client incident tracking.
- Led repository management with GitFlow and SourceTree.
- Organized tasks with Jira.

ACADEMIC BACKGROUND

SWIFT FULL STACK BOOTCAMP.

APPLE CODING ACADEMY 2023 && 2024 EDITIONS

- Programming and Algorithms
- Advanced Swift 6
- Xcode 16 and AI Assistants
- Asset Catalog
- Git
- Documentation with DocC
- Document-based apps in SwiftUI
- Swift Data
- Combine
- Unit Testing & UI Testing with SwiftUI
- Apple Passkey
- Vapor Deployment on Salesforce Heroku
- Xcode Cloud and App Store
- UIKit Integration in SwiftUI

BootCamp FullStack Mobile Developer

KeepCoding SL - 2020 - 2021

- Gained expertise in Swift and full-stack mobile development, focusing on iOS
- Developed native apps using UIKit, SwiftUI
- Acquired skills in advanced concurrency with Async/Await
